Re: Carswell Air Force Base  
TNRCC Solid Waste Registration No. 65004  
Hazardous Waste Permit No. HW-50289  
**Review of Draft Closure Report for Grounds Maintenance Yard (AOC 05)**  
Approval - Risk Reduction Standard No. 2

Dear Mr. Vazquez:

The Texas Natural Resource Conservation Commission (TNRCC) has completed our review of the *Draft Closure Report for Grounds Maintenance Yard* (Final Report) dated October 2000 and received by the TNRCC on December 14, 2000. In addition, the TNRCC also reviewed comments received from EPA Region 6 dated December 4, 2000. According to the Final Report, closure activities have been completed in accordance with the TNRCC Risk Reduction Standard (RRS) No. 2, pursuant to Title 30 Texas Administrative Code (TAC) Chapter 335 Subchapters A and S.

The Final Report contains documentation indicating that closure/remediation of the Grounds Maintenance Yard has attained RRS No. 2 such that no post-closure care or engineering or institutional control measures are required. Based upon the information contained in the Final Report and other information available to staff, it appears that the closure has achieved RRS No. 2.

As specified in §335.560, AFBCA must submit proof of deed certification to the TNRCC within ninety (90) days from the date of this letter. Upon acceptance of the proof of deed certification, the TNRCC will transmit a final letter releasing AFBCA from post-closure care responsibilities for the Grounds Maintenance Yard.

If applicable, please submit a request in writing to update your Notice of Registration (NOR) to the Registration and Reports Section at Mail Code MC-129 with a copy of this letter as an attachment.

Please be aware that it is the continuing obligation of persons associated with a site to assure that municipal hazardous waste and industrial solid waste are managed in a manner which does not cause

Mr. Rafael E. Vazquez

December 19, 2000

the discharge or imminent threat of discharge of waste into or adjacent to waters in the state, a nuisance, or the endangerment of the public health and welfare as required by 30 TAC §335.4. If the actual closure fails to comply with these requirements, the burden remains upon AFBCA to take any necessary and authorized action to correct such conditions. A TNRCC field inspector may review your Final Report and conduct a closure inspection of the site.

Questions concerning this letter should be directed to me at (512) 239-2360. When responding by mail, please submit an original and one copy of all correspondence and reports to the Corrective Action Section at Mail Code MC-127 with an additional copy submitted to the TNRCC Region 4 Office in Arlington. The TNRCC Solid Waste Registration Number and Unit Name should be referenced in all submittals.

Sincerely,

Mark A. Weegar, Project Manager  
Team II, Corrective Action Section  
Remediation Division  
Texas Natural Resource Conservation Commission
