RE: Approval of Final Closure Report, dated January 19, 2001
No Further Action Request for SWMU 45 - RRS 1
NAS Fort Worth JRB, Carswell AFB, Texas
TNRCC Solid Waste Registration No. 65004
TNRCC Hazardous Waste Permit No. HW-50289
EPA ID No. TX0571924042

Dear Mr. Dodyk:

The Texas Natural Resource Conservation Commission (TNRCC) received your Final Closure Report and No Further Action Request for SWMU 45, dated January 19, 2001. The TNRCC has completed a review of the Report and Request referenced above. Based on the information provided, it appears that there is no evidence of a release or that SWMU 45 ever existed; therefore, No Further Action status is warranted. SWMU 45 is hereby released from RFI requirements.

During the upcoming permit renewal, AFCEE should include this unit in the Corrective Action portion of the permit, but may include a status statement that the RFI has been completed and has been approved NFA. Please update your Notice of Registration (NOR) as appropriate. Any correspondence concerning the NOR should be mailed to the TNRCC Registration and Reporting Section at Mail Code MC-129.

Please be aware that it is the continuing obligation of persons associated with a site to assure that municipal hazardous waste and industrial solid waste are managed in a manner which does not cause the discharge or imminent threat of discharge of waste into or adjacent to waters in the state, a nuisance, or the endangerment of the public health and welfare as required by 30 TAC §335.4. If SWMU 45 fails to comply with these requirements, the burden remains upon AFCEE to take any necessary and authorized action to correct such conditions. A TNRCC field inspector may review your Report and conduct an inspection of the unit.
