Reply to attn of RDVW

Subj: Herbicide orange research site logistics

TO: Commanding Officer  
Naval Construction Battalion Center  
Gulfport, MS 39501  
Code 470

1. HQ AFESC/RDVW anticipates that a follow-on research project will be initiated at NCBC during November, 1985. Based on this scheduled project I would like to request that the currently available utility services to the Herbicide site be maintained through March, 1986. This will facilitate timely completion of the sceduled research.
2. I would also like to request that the former Herbicide Orange storage site at NCBC be kept available for continuing Air Force research through March, 1986 .
3. Point of contact for the next scheduled AF research project is Lt Ed heyse, telephone( AV 970-2942 or 970-4628. Alternate point of contact is Capt Terry Stoddart telephone (AV) 970-2942.
4. I would like to express my appreciation to the PWO staff for making our current research project a reality. THANKS!!!! to all involved.

A handwritten signature in black ink that reads "Terry L Stoddart".

Terry L Stoddart, Capt, USAF, BSC  
Program Manager
