- Ref: (a) State of Mississippi Hazardous Waste Compliance Inspection of 20 Sep 85
(b) PHONCON btwn State of Mississippi Bureau of Pollution Control Ms Undeen Johnson/CBC Gulfport (Code 470.2) James H. Cluff of 4 May 87
(c) PHONCON SOUTHNAVFACENCOM (Code 11425) Mr. Mike Greene/ CBC Gulfport (Code 470.2) Mr. James H. Cluff

1. CBC Gulfport is classified as a hazardous waste generator only and cannot (and does not) treat, store or dispose of hazardous waste on site. Reference (a) confirmed that as a generator only, CBC Gulfport is not required to construct containment areas around hazardous waste accumulation points or staging areas. The fact that containment areas are not required in CBC's present mode of operation was confirmed during references (b) and (c).

2. If CBC Gulfport were required to construct hazardous waste containment areas, these areas must conform to federal regulations governing hazardous waste storage areas, i.e., sprinkler systems, alarm systems, special construction requirements, etc., resulting in an unnecessary expense to the Center.

Very respectfully,

J. H. CLUFF
