RE: NCBC Daily Analytical Requirements - Treated Soil

Dear Major Stoddart:

This is in response to your letter of November 24, 1987, regarding the analyses to be done on a daily basis of the treated ash from the incinerator. You requested that the analyses be changed to the following:

- a) 2,3,7,8-TCDD
- b) total tetrachlorodibenzo dioxins
- c) total tetrachlorodibenzo furans

We agree with your justification and rationale and are hereby approving this change as a minor modification of your RCRA RD&D permit.

Sincerely yours,

Patrick M. Tobin

Patrick M. Tobin, Director
Waste Management Division
