LETTER FROM U S AIR FORCE REGARDING HERBICIDE ORANGE INCINERATOR
PROJECT SITE CLOSURE NCBC GULFPORT MS
2/25/1988
U S AIR FORCE

DEPARTMENT OF THE AIR FORCE
HEADQUARTERS UNITED STATES AIR FORCE
WASHINGTON, DC 20332-5000

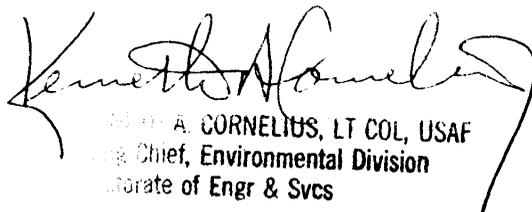

25 FEB 1988

REPLY TO
ATTN OF: LEEV

SUBJECT: Herbicide Orange Incinerator Project Site Closure (Your Ltr, 26
Jan 88)

TO: Capt Q.E.D. Lewis
Commanding Officer
Naval Construction Battalion Center
Gulfport MS 39501-5000

1. Thank you for your letter and for your continued cooperation and support on the incinerator project. I assure you we understand and appreciate the concerns you have about the site closure and its associated land use impacts. However, we are confident that with your help we can corporately resolve the closure issue to include, to the maximum extent possible, accommodation of CBC's growth requirements.
2. In response to your request, I have assigned responsibility for overseeing the closure plan effort to Captain Charles "Chuck" Howell who works in my Environmental Operations Branch (HQ USAF/LEEVO). Captain Howell will work closely with your staff to ensure the closure plan and the contractor efforts fully address both Air Force and Navy requirements. Captain Howell can be reached at AUTOVON 297-0275 or commercial (202) 767-0275.
3. Again, thanks for your cooperation and support. We appreciate the opportunity to work with you on this important project which ultimately will benefit both of our services. If I may be of any further assistance, please contact me at AUTOVON 297-4178 or commercial (202) 767-4178.

KENNETH A. CORNELIUS, LT COL, USAF
Chief, Environmental Division
Corporate of Engr & Svcs
