Subj: Incineration Project Continuation

To: Commanding Officer
NCBC
Code 800
Gulfport, MS 39501
attn: Mr Prettyman

1. The current Air Force incineration project at NCBC will not conclude in March, 1988, as previously stated. It is very possible that the Air Force will have contractors on site through 31 December 1988.
2. Request you take whatever action that is necessary to extend or renew contractor identification/passes through 31 December 1988.
3. Should you have any questions, please contact me at AUTOVON 523-2942.
