CONFIRMATION OF MEETING FOR NCBC PROJECT TERMINATION - DJH-24-88

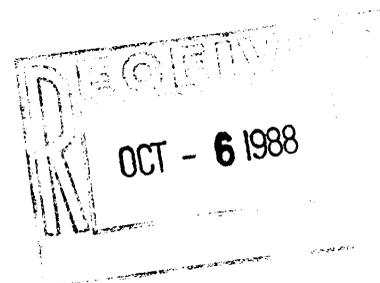

Dear Mr. Tobin:

Per our conversation on September 20, 1988, we are looking forward to visiting you in Atlanta on Wednesday, October 12 at 9:30 a.m., to discuss the final phases of the incineration research project at NCBC, Gulfport, Mississippi, and to discuss the requirements for final site disposition. The purpose of the meeting is to begin demonstrating site cleanliness to the EPA so that the site can be confidently returned to full and beneficial use. A proposed meeting agenda is attached.

In support of this effort, I have invited the following persons:

Mr. James Cluff	NCBC Environmental Coordinator
Capt. C. R. Howell	Air Force Environmental Operations
Mr. Jeffrey Short	Air Force Environmental Operations
Lt. Col. D. Bentsen	Air Force Environmental Operations
Mr. Carl Friedrich	EG&G Idaho, Inc.

Throughout the project, the Air Force has been successfully following the intent of the CERCLA and Installation Restoration Program guidelines towards the initial goal of returning the site to full and beneficial use; it is our intent to continue to follow those guidelines. To ensure that those guidelines and EPA regulations are met, we are soliciting guidance from your staff. Therefore, I request that senior CERCLA personnel from your staff be invited to this meeting. In particular, I would encourage Mr. Art Linton to be part of the discussions.

Patrick Tobin
September 30, 1988

If you have any questions, please call me at (208) 526-9959.

I look forward to meeting with you.

Very truly yours,

Daniel J. Haley
Sr. Programs Specialist
Environmental Program Management
