Dear Mr. Friedrich:

We have reviewed your letter of October 20, 1988 requesting concurrence from the Naval Construction Battalion Center (CBC), Gulfport, concerning termination of utilities at the Herbicide Orange project site. We concur with your proposed utility removal/termination plan, however, we require that you provide a complete set of drawings to our Engineering Division (Code 430) showing the exact location of all utilities left in place in relationship to existing land marks, i.e., railroad tracks, fire hydrants, etc. We further request that all utility termination efforts be fully coordinated with Mr. Dick Ekey, Maintenance Control Division (Code 420), (601) 865-2244. If you have any questions or comments please do not hesitate to contact my office at (601) 865-2241.
