RE: Draft Final Biological Monitoring Workplan, Naval Construction Battalion Center,
Gulfport, Mississippi.

Dear Mr. Crane:

The Mississippi Department of Environmental Quality (MDEQ) has completed the review of the above referenced document. The activities described within are approved and the document is considered final. However, the document is general in nature, needing clarification in several areas, (i.e. sampling locations, fish species, size, etc...). Clarification of these issues relating to site sampling should be coordinated with the appropriate MDEQ staff. Please contact me at 601/961-5302, for further assistance.

Sincerely,

A handwritten signature in cursive script that reads "Phillip Weathersby".
