Re: Focused Feasibility Study (Revision II) for Site 8 Herbicide Orange Storage Area at Naval Construction Battalion Center Gulfport, MS, March 2003.

The Mississippi Office Of Pollution Control has reviewed the above referenced document and changes made to the previous "final" version. The document appears to be adequate for the intended purpose and should be issued as final. The document should indicate "Revision II" in the title to identify it as the most recent version.

Please feel free to contact me if I can be of further assistance.

Sincerely,

Bob Merrill
