Re: Proposed Plan for Site 4 - Golf Course Landfill, Naval Construction Battalion Center  
Gulfport, Mississippi, Draft, November 2009.

The Mississippi Office of pollution Control has reviewed the above referenced document. The following concern was noted during document review.

1. The description of chemicals of concern (COCs) for Site 4 (given on page 9) describes occurrences within each contaminant group that exceed regulatory screening/risk levels. These descriptions include the name of each chemical that exceeds screening levels for all except PCBs (page 9, last paragraph). A list of PCBs that exceed screening/risk levels should be included as described for the other COC contaminant groups.

Please feel free to contact me if I can be of further assistance.

Sincerely,  
  
Bob Merrill
