NCBC Gulfport Environmental Public Meeting

Topic: The Proposed Plan for the
former Golf Course Landfill (Site 4)

Tuesday, December 15, 2009

4:30–5:30 PM: Poster Session

5:30–6:30 PM: Presentation

Westside Community Center

4020 8th Street

Gulfport, Mississippi

The Navy will be discussing their Proposed Plan to address contaminants found in the soil, sediment, surface water, and groundwater at Site 4, the former Golf Course Landfill. The plan proposes to construct a landfill cover, clean adjacent ditches, manage landfill gases, restrict future land use, and monitor the groundwater. The cap would prevent direct contact with the contaminated water and soils and would therefore be protective of human health and the environment.

This meeting will open a **30-day Public Comment Period** for this cleanup proposal. Copies of the Proposed Plan and other associated reports will be available for review during the comment period at the NCBC Gulfport Information Repository located in the temporary Gulfport public library at 47 Maples Drive, Trailer #1, Gulfport, MS, 39507.
