Dear Cmdr. Zink:

Re: Storm Water Permitting for
Naval Construction Battalion Center
SIC Code 9711, National Security
Gulfport, Harrison County

The information you provided for the referenced facility indicates that the applicable SIC Code is 9711. This code is currently exempt from mandatory storm water permitting under federal regulation, 40 CFR 122.26. Therefore, a storm water permit is not needed at this time. Care should nevertheless be taken to prevent pollution of storm water as permitting can be required if there is pollution.

We appreciate your interest in the storm water regulations and submission of the BNOI and Storm Water Pollution Prevention Plan. Please let us know if you would like these items returned or if you have any questions.

Sincerely,

Louis Lavalley, P.E., Chief
Industrial Storm Water Section

cc: Mr. Gordon Crane, NCBC
