5200 CBC 2nd St.  
Gulfport, Ms. 39501

RE: Environmental Assessment for the Construction of a Golf Course Addition at NCBC.

Dear Gordon:

The Mississippi Office of Pollution Control has reviewed the reference document and approves the recommended preferred alternative. It is our understanding that construction of the golf course addition will not require intrusive activities at Installation Restoration Program (IRP) sites and that the addition will not preclude or delay any future IRP activities, including site investigation and/or remediation necessary at NCBC. If you need further assistance, please do not hesitate to call me at 601/961-5302.

Sincerely,

A handwritten signature in cursive script that reads "Phillip Weathersby".
