Dear Major Stoddart:

This concerns the split samples taken during the December 1986 test burn and May 19, 1987 of the RCRA trial burn, respectively. Both sets of samples may be destroyed since additional analysis is not needed from the December 1986 test and Region IV does not wish to analyze the POHC samples taken on May 19, 1987.

If there are questions, please contact Ms. Caron Falconer at (404) 347-3433.

Sincerely yours,

James H. Scarbrough, P.E., Chief
Residuals Management Branch
Waste Management Division
