Re: Technical Memorandum, Sediment Stabilization Treatability Test Results, Site 8 (Herbicide Orange Storage Area), Naval Construction Battalion Center Gulfport, MS, Draft Final, May 2015.

The Mississippi office of Pollution Control has reviewed the above referenced document. No concerns about the treatability test results were noted during document review and planned objectives mirror those described during meeting presentations and discussions. The document should be issued as final after concerns from all other reviewers have been addressed.

Feel free to contact me if I can be of further assistance.

Regards,

Bob Merrill
