Re: Sites 8B and 8C (Former Herbicide Orange Storage Area), Sediment Stabilization Work Plan (Stabilization Pilot Test Work Plan, Construction Quality Control Plan, Waste Management and Environmental Protection Plan), Naval Construction Battalion Center Gulfport, MS, Draft Final, June 2015.

The Mississippi office of Pollution Control has reviewed the above referenced document. No concerns about the sediment stabilization work plan were noted during document review and planned objectives mirror those described during recent meeting presentations and discussions. The document should be issued as final after concerns from all other reviewers have been addressed.

Feel free to contact me if I can be of further assistance.

Regards,

  
Bob Merrill
