Closure Assessment Report – Review Comments**

Dear Mr. Sigona:

The Environmental Quality Division (EQD) has reviewed the May 3, 2010 Underground Storage Tank Closure Assessment Report that was submitted by Environmental Compliance Services, Inc. on March 12, 2010 for the above referenced facility. It has been determined that the Underground Storage Tank Closure Assessment Report in this matter complies with the Department of Environmental Protection's "Storage Tank Closure Assessment Requirements."

The Underground Storage Tank Closure Assessment Report documents the discovery of contamination in excess of State Cleanup Target Levels, thus the Underground Storage Tank Closure Assessment Report and discharge will be referred to the Florida Department of Environmental Protection's Bureau of Waste Cleanup for further evaluation and response.

Please be aware of applicable Discharge Reporting Form submittal requirements as provided in Chapters 62-761, 62-762, and 62-770, Florida Administrative Code; and site assessment initiation requirements as provided in Chapter 62-770, Florida Administrative Code.
