NAS Jacksonville Tier 1 Team:

On behalf of the Florida Environmental Partnering Alliance (FEPA) I would like to commend your Team for outstanding performance in environmental restoration at NAS Jacksonville during Fiscal Year 2008.

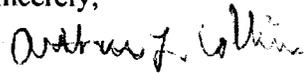

*U.S. Environmental
Protection Agency,

In addition to the ongoing remedial investigations at NAS Jacksonville, the Tier 1 Team's diligence and hard work resulted in one Record of Decision. This accomplishment and the resulting progress towards site closeout contributed substantively to the Navy's overall environmental cleanup program at their facilities in Florida and throughout the southeast.
