Dear Mr. Murphy:

Department personnel have completed the technical review of the Preliminary Draft Navy Installation Restoration Program, September 1990, Vols. 1,5,6, Naval Air Station, Jacksonville, Florida. I have enclosed a memorandum from Dr. James J. Crane to me. It documents the Department's concerns on the report.

Please note that our concurrence of no further action for ten of the potential sources of contamination is conceptual at this time. As per a previous telephone conversation with you, our final decision will be based upon additional documentation to be submitted in the future.

If I can be of any further assistance with this matter, please contact me at 904/488-0190.

Sincerely,

Eric S. Nuzie
Federal Facilities Coordinator
