Orange Park, Florida 32073

RE: Colleague review of report "Hydrologic investigation and simulation of ground-water flow in the surficial aquifer at Operable Unit 3 of the U.S. Naval Air Station, Jacksonville, Florida" by J. H. Davis

Dear Ms. Miller:

As requested by Dana Gaskins, the attached subject report has been sent for your technical review. This report will be published as a USGS Administrative Report. Thank you for taking the time to review it. We would appreciate receiving your comments by July 1, 1997. Please contact Hal Davis at 904 942-9500, Ext. 3038, or Gary Mahon, Ext. 3023, if you have any questions about the report or if you are unable to complete the review by this date. We have included the report "Simulation of ground-water flow at the U.S. Naval Air Station, Jacksonville, Florida, with an evaluation of changes to ground-water movement caused by proposed remedial designs at Operable Unit 1" for your information because it is heavily referenced in the subject report.

Sincerely,
For the District Chief,

Hal Davis
Hydrologist
