RE: Draft – Site Investigation Report for Potential Source of Contamination 55, Naval Air Station
Jacksonville, Jacksonville, Florida

Dear Ms. Wilson:

The Department has reviewed the Draft – Site Investigation Report for Potential Source of Contamination 55, Naval Air Station Jacksonville, dated April 2013 (received April 25, 2013), prepared and submitted by Tetra Tech. The comments from the Department dated October 11, 2012, were adequately addressed in the response to comment letter dated April 24, 2013. The Department agrees that further delineation in both soil and groundwater are warranted at this site and from now on will be investigated in conjunction with PSC 8 (to be known as PSC 8/55 for tracking purposes). The draft site investigation report is approved as final.

If you have any questions regarding this letter, please contact me at (850) 245-8935.

Sincerely,

Jennifer R. Conklin
Remedial Project Manager
Department of Defense and Brownfields Partnerships
Bureau of Waste Cleanup
