Site Status Update

January 1997

Operable Unit (OU) One — The Record of Decision is being revised. No date for signature. Discussion continuing concerning request for legal language for land use restrictions.

Building 106 — Construction of air sparging (blowing air into groundwater), and soil vapor extraction (vacuuming of vapors from soil) is scheduled in March 1997.

Building 780 — Construction of soil vapor extraction (vacuuming of vapors from soil) and groundwater extraction (removing contaminated water from underground) is scheduled in March 1997.

Operable Unit (OU) One Light Non-Aqueous Phase Liquid (LNAPL) Removal — Pumping continues. Quantity of LNAPL recovered averages less than 55 gallons per quarter.

PSC-42 (Polishing Pond) — Bechtel Environmental, Inc. continuing "in-situ" (in its place) stabilization. Schedule completion — February 1997.

PSC-18 (Radioactive Waste Disposal Area) — All radioactive material has been removed. Fence has been removed. Final walkover survey scheduled for last week in November.

Operable Unit (OU) Two — Final Remedial Investigation (RI) report due June 30, 1997.

Operable Unit (OU) Three — Additional information being gathered for report.

Casa Linda Lake — Naval Facilities Engineering Service Command (NFESC) negotiating contract.

Naval Air Station (NAS) Jacksonville Restoration Advisory Board (RAB) Survey

This brief survey was developed to get feedback from community members of the RAB. Your responses will help the Navy identify areas where the RAB is working well, and focus on areas needing improvement. It will also assist in developing **your** presentation for the joint RAB meeting on February 18, in that we can use this information to highlight RAB successes from the perspective of the community. Please take a few minutes to complete the survey and return it to **Bill Dougherty** by January 28.

What do you see as your primary responsibilities as a RAB member?

What type of support are you getting from the Navy to fulfill these responsibilities?

What do you see as the major successes of the RAB in the past two years?

Where do you see room for improvement in the way the RAB operates?

How do you feel that the RAB is performing a service for the community?

Please provide specific recommendations on how the RAB might serve the local community more effectively.

Please provide any other information which describes your impressions of the RAB, its mission, and its effectiveness.
