RE: Final - Engineering Evaluation/Cost Analysis for Potential Source of Contamination 45, Naval Air Station Jacksonville, Jacksonville, Florida

Dear Ms. Wilson:

The Department has reviewed the Final Engineering Evaluation/Cost Analysis (EE/CA) for Potential Source of Contamination 45, Naval Air Station Jacksonville, dated October 1, 2013 (received October 8, 2013), prepared and submitted by Tetra Tech. As stated in the previous approval letter, this document has been overcome by events. The work plan for the proposed remedy (Alternative 3: Excavation to Residential Cleanup Criteria and Off-Base Treatment and Disposal), was submitted in a document entitled Work Plan-Phase 3 Vapor Intrusion Investigation at OU3, MNA Investigation and Annual Groundwater Sampling at PSC 47, PSC 45 Soil Excavation, Base Wide Well Abandonment, and Various Systems Decommissioning/Removal Actions dated June 14, 2013 (received June 17, 2013) prepared by AGVIQ. The PSC 45 Soil Excavation portion of the work plan was approved by the Department on July 11, 2013, and the excavation was performed between August 26 and September 4, 2013. The Department agrees with the proposed remedy. The EE/CA as prepared is adequate and is approved as final.

If you have any questions regarding this letter, please contact me at (850) 245-8935.

Sincerely,

Jennifer R. Conklin
Remedial Project Manager
Department of Defense and Brownfields Partnerships
Bureau of Waste Cleanup
