Re: Draft Pilot Study Workplan – Site 57/PSC 57 S-3 High Power Turn-Up Pad, Naval Air Station  
Jacksonville, Jacksonville, Florida

Dear Ms. Wilson:

The Department has reviewed the Draft Pilot Study Workplan – Site 57/PSC 57 S-3 High Power Turn-Up Pad, dated March 2016, (received March 28, 2016) prepared and submitted by Resolution Consultants under Contract Number N62470-11-D-8013. The Department has the following comments:

1. Please include a figure showing the location of monitoring wells HPTP-MW03, HPTP-MW04, and HPTP-MW06 to be used for ORC sock installation and performance monitoring.
2. Please include a figure showing groundwater flow direction.
3. The text states the ORC socks will remain in the wells for approximately 9 to 12 months. What criteria will be used to determine when the ORC socks are to be removed from the wells?

If you have any questions regarding this letter, please contact me at (850) 245-8935.

Sincerely,

A handwritten signature in blue ink, appearing to read "Aaron B. Cohen".

Aaron B. Cohen  
Remedial Project Manager  
Department of Defense and Brownfields Partnerships
