Subj: SOIL GAS SURVEY ANALYSIS FOR OU#1 REMEDIAL INVESTIGATION AND FEASIBILITY
STUDY

Dear Mr. Trainor:

This technical directive is issued for the clarification of analysis to be used in the Remedial Investigation and Feasibility Study (RI/FS) for NAS Jacksonville OU#1. The NAS Jacksonville Partnering Team feels the use of the Soil Gas Survey at OU#1 should be employed as a method for the RI/FS at NAS Jacksonville. The Soil Gas Survey could possibly locate free product not previously identified and provide the information necessary to proceed with the completion of the RI/FS, therefore you are hereby authorized to proceed with this approach.

If there are any questions concerning this matter, please contact me at (803) 743-0353 or Dana D. Gaskins at (803) 743-0628.

Sincerely,

HARRY DOO
