Dear Mr. Harris

Attached is the signed Explanation of Significant Difference (ESD) for the former Richards-Gebaur Air Force Base. The ESD formally documents the remedy change for OU-01 soil sites from land use controls (LUCs) to no further action (NFA). This change is based on re-evaluation of soils data in accordance with the new Missouri Risk-Based Corrective Action (MRBCA) Process for Petroleum Storage Tanks (January 2004) and update memorandum dated March 2005. "Significant but not fundamental changes" require an ESD to document and explain the rationale for the change.

If you have any questions or comments regarding the above document, please call me at (210) 925-3050.

A handwritten signature in cursive script that reads "Chris Morriss".
