Atlanta, GA 30303-3104

Dear Mr. Ballard:

Per action item matrix 1117-16, Naval Air Station was assigned to remove the potential source of free product in and near Building 103 on Truman Annex by draining and removing diesel and petroleum fuel from the tanks and pipes. The Public Works Department completed the work on May 12, 1999 by removing and draining approximately 500 gallons of oil from in and around the building.

For further information regarding this matter, contact our Installation Restoration Manager, Mr. Phillip Williams, at (305)293-2061.

Sincerely,

A handwritten signature in black ink, appearing to read "R. A. DEMES", written over a horizontal line.

R. A. DEMES  
Engineering Director  
Public Works Department  
By direction of  
the Commanding Officer
