205 Butler Street, SE, Suite 1252  
Atlanta, GA 30334

Dear Mr. Ussery:

Thank you for your participation in our fifth Technical Review Committee (TRC) Meeting for the Installation Restoration Program at Naval Submarine Base, Kings Bay.

Minutes of the meeting are enclosed for your review and comment.

Although we have not scheduled the next TRC meeting, we tentatively plan on setting up, within the next few weeks, a ground drilling rig for Crooked River Plantation subdivision residents to view. This should help show residents what they can expect when drilling for monitoring wells begins. Although disruption should be minimal because of the short duration, this static demonstration will answer many questions in advance and should alleviate a majority of concerns. We will advise you when a firm date for this demonstration has been set.

If you have questions about the minutes, or the Installation Restoration program in general, please contact Mr. John Garner at 912-673-8845.

Sincerely,

M. J. PATTERSON  
Lieutenant Commander, CEC, USN  
Assistant Public Works Officer  
By direction of the  
Commanding Officer
