Mr. John Peterson
Camden County Administrator
P.O. Box 99
Woodbine, GA 31568

Dear Mr. Peterson:

This is to notify you of our next Technical Review Committee (TRC) Meeting for the Installation Restoration Program for Naval Submarine Base (SUBASE), Kings Bay which will be held in SUBASE Public Works Conference room, Building 2015, at 10:30 a.m. on October 28, 1993.

Well drilling for the pilot study at Site 11, Old County Landfill, and other affected areas is scheduled to start on October 18, 1993. The first phase of drilling should end by October 27, 1993. The TRC Meeting will cover the drilling operation and explain the Interim Measures and Supplemental RCRA Facility Investigation Work Plans. Final drafts of these Work Plans were sent to you by separate letter, as well as to the Georgia Department of Natural Resources for their review and comment. We are advising Crooked River Plantation subdivision residents of what to expect by a mail-out fact sheet. Prior to the start of drilling on October 18, 1993, we are prepared to conduct an inspection and briefing on the drilling rig operation. This will be scheduled if any interest exists. Please let us know if you or any other community member is interested in attending.

We look forward to your attendance at this important meeting. Your participation as a member of our Installation Restoration Team is essential for successful completion of this pilot study and the follow-on remediation activities.

If you have questions or need more information please contact Mr. John Garner at 912-673-8845.

Sincerely,

M J PATTERSON
Lieutenant Commander C
