Re: 5090 Ser FE4/5216

Notice of Subase Restoration Advisory Board Meeting

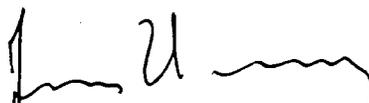

Dear Sir:

We have received today, July 17, 1995, notice of the scheduling of the July 20, 1995 meeting of the Subase Restoration Advisory Board (RAB). We will be, once again, unable to attend this meeting because of prior commitments.

Our having scheduled these prior commitments is a direct result of the lack of sufficient advance notice. We require ten (10) working days advance notice of meetings under normal conditions; we can be more flexible in the event circumstances warrant. **More importantly, however, no one at Subase is checking these meeting dates in advance with the appropriate EPD staff.**

We have a sincere desire to be an active part of the Subase RAB. As the approval of restoration projects lies to a great extent with the EPD, it is in the best interest of Subase and the community that we participate. Prior to scheduling any further RAB meetings, or if you need further information, please have someone contact your compliance officer, Billy Hendricks, at (404)656-2833.

Sincerely,

Jim Ussery, Program Manager  
Hazardous Waste Management Branch
