RETURN RECEIPT REQUESTED

Georgia Department of Natural Resources
Attn: Mr. Bruce Khaleghi, Unit Coordinator
Hazardous Waste Management Program
Environment Protection Division
205 Butler Street, S. E. Suite 1254
Atlanta, Georgia 30334

Dear Mr. Khaleghi:

This responds to your Notice of Deficiency (NOD) letter of June 14, 1995. Your letter conveyed comments on our Interim Measure Phase I Activities, Evaluation and Recommendations Report, Site 11, Naval Submarine Base, Kings Bay, Ga.

In telephone conversations between SUBASE's Mr. John Garner and your Mr. Billy Hendricks on July 18, 1995 and between Mr. John Garner and yourself on July 19, 1995, we requested a meeting with Mr. Jim Ussery and his staff to discuss the NOD. Our consultant, ABB-Environmental Services, and our staff engineers have a number of concerns regarding your comments on the Interim Measure Activities Report. We would like to clarify your requirements at this meeting. Our consultant is preparing a draft response matrix which we will fax to you for your review before the meeting. We understand that you would prefer to hold this meeting during the first week in September so that key members of your staff can attend. We will coordinate a convenient meeting time with Mr. Hendricks.

During the aforementioned telephone conversations, we also discussed an extension to your letter's required response date. You indicated that 45 days should be acceptable, however we request a 90 day extension. We will need additional time after the meeting in September to prepare a complete and satisfactory response to the NOD. Please be assured that we intend to move forward on this important project without delay.
