Re: Installation Restoration Program  
Site 11 Project Team Meeting

Dear Sir:

We have received your invitation to attend the project team meeting to be held in Charleston, South Carolina April 7-8, 1997. We will unfortunately be unable to send a representative due to prior commitments. This meeting obviously signals significant achievements in the continuing investigation of Site 11, the old Camden County Landfill. Despite our inability to attend, we are extremely interested in the content of the meeting.

Please provide to this office, at your earliest convenience, copies of the information furnished at the meeting. In addition, we are requesting that we be included on the distribution list for draft technical deliverables, specifically including the results of the recent pumping tests, results of the recovery well redevelopment, and analytical data for samples collected during the SCAPS survey. In order to adequately prepare for the next Restoration Advisory Board meeting (currently scheduled for April 24, 1997), we will need the data in hand for review at least a week in advance.

Thank you for your invitation to the team meeting; in the future, it would be helpful if you would include us in the scheduling process. If you have questions or comments, please contact Madeleine Kellam or Billy Hendricks at 404-656-2833.

Sincerely,

Bruce Khaleghi, Unit Coordinator  
Hazardous Waste Management Branch
