Dear Mr. Hendricks:

This letter responds to your correspondence of February 23, 2001. You asked for information on a 6-inch well that you noticed on February 12, 2001.

The 6-inch diameter well you identified near Site 11, Old Camden County Landfill, is U.S. Geological Survey (USGS) Well #33E116. The attached report, HYDROGEOLOGY OF THE SURFICIAL AQUIFER IN THE VICINITY OF A FORMER LANDFILL, NAVAL SUBMARINE BASE KINGS BAY, CAMDEN COUNTY, GEORGIA, by David C. Leeth, U.S. Geological Survey, 1999, documents that purpose of this well was for site investigation. A boring log is included as page 10 of this report and a well-construction diagram is included as page 18. We no longer need this well and intend to abandon it.

We plan to sample groundwater at site 11 during the first week of May, 2001.

Please advise us if you require more information. The SUBASE Kings Bay point of contact is Ken Yargus, (912) 673-2001, extension 1217. Please address all correspondence to "Commanding
