Dear Mr. Khaleghi:

Please find for your review enclosure (1), our Semi-Annual Corrective Action Assessment Report for April - September 2001, Site 11, Old Camden County Landfill, Naval Submarine Base, Kings Bay, as required by our Hazardous Waste Permit HW-014 (S&T)-3.

This report includes results of annual testing for constituents listed in Appendix IX of 40 CFR Part 264. We detected naphthalene, cobalt, and nickel in monitoring well KBA-11-13A. We resampled, received the results October 4, 2001, and notified Mr. Hendricks by telephone on October 10, 2001. Our permit requires us to add these constituents to the Groundwater Protection Standards (table E-1 of our permit). If you concur, we will analyze for these new constituents quarterly at site 11.

I certify under penalty of law that this document and all attachments were prepared under my direct supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
