Re: Final RFI Report for Sites 5 & 16  
5090 Ser FE4/2409

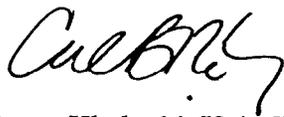

Dear Sir:

We have reviewed the final RCRA Facility Investigation (RFI) Report for Site 5, the Army Reserve Disposal Area, Towhee Trail, and Site 16, the Army Reserve Disposal Area near Old Sewage Lagoon 3990, at the Naval Submarine Base Kings Bay, identified in your Hazardous Waste Facility Permit, HW-014(S&T)-3 as Solid Waste Management Units 4 and 6, respectively. This final Report is acceptable as submitted.

We concur with your conclusion that these sites have caused no demonstrable release to the environment. We agree that no further remedial action need be proposed for these sites at this time. This decision will become final when your Permit is next amended.

Please note our recent change of street name. Thank you for your continuing interest in protecting Georgia's environment. If you have questions or comments, please contact Billy Hendricks or Larry Papetti at 404-656-2833.

Sincerely,

  
FOR  
Bruce Khaleghi, Unit Coordinator  
Hazardous Waste Management Branch
