**Subject: Transmittal of Comments from Review of Site 11 Hydrogeologic Framework Report, Naval Submarine Base, Kings Bay, Georgia**

Dear Chris:

Enclosed are the executed USGS manuscript routing sheet and written comments on the above-referenced report based on my and Kurt Sichelstiel's review. The enclosed comments will not reflect the same numbering as in my e-mail of February 3, 1998, because Kurt's comments have been added in sequence. A clean copy of the report, as submitted to ABB-ES, is also enclosed for your use in locating page numbers, paragraphs, and line numbers cited in the comments, if needed.

We thank you for the opportunity to review the Site 11 hydrogeologic framework report. Please call if you have questions or need clarification about our comments.

Sincerely,

ABB Environmental Services, Inc.
