Twin Towers Office Building  
2600 Blair Stone Road  
Tallahassee, FL 32301-8241

Subj: INITIAL ASSESSMENT STUDY (IAS), NAVAL STATION (NAVSTA), MAYPORT, FL

Dear Mr. Nuzie:

This office will be handling additional investigations at NAVSTA Mayport under the Naval Assessment and Control of Installation Pollutants (NACIP) Program. Mr. Barry Lester will be acting as Engineer-in-Charge for this project and indicated that the meeting of 2 October with yourself and the E. C. Jordan Company proved beneficial in establishing relations and understanding the roles of each party in this project.

Comments received in your August 4, 1986 letter will be taken into consideration as we develop the Verification Work Plan. A draft copy will be forwarded to your office and after review by your staff and EPA Region IV, a meeting will be scheduled to discuss the course of action to accomplish the field work.

Questions concerning this matter should be directed to Mr. Lester at (803) 743-5510.

Sincerely,

D. R. SPELL, P.E.  
Head, Environmental Branch
