Subj: VERIFICATION STUDIES FOR NACIP SITES AT NAVAL STATION, MAYPORT, FLORIDA

Dear Mr. Linton:

Enclosed is the proposed work plan for the NACIP Verification Studies to be conducted at Naval Station, Mayport, Florida. Eleven sites have been selected. The E. C. Jordan, Co., Tallahassee, Florida prepared the work plan under Navy contract and will be performing the field investigations. Participation by your office in a pre-work meeting tentatively scheduled for March 19, 1987, at Naval Station, Mayport is solicited. We request your attendees address both CERCLA and RCRA requirements at this meeting.

A recent RFA was conducted at Naval Station, Mayport by Mr. Herb Miller from Region IV. The sixteen sites initially identified in the IAS portion of the NACIP program were visited. The refuse incinerator was also inspected. We are currently awaiting results of this review. If the RFA recommends investigations at sites not addressed in our current work plan, we suggest that a separate effort be initiated to investigate the new sites and the proposed work allowed to continue. This will aid in facilitating our current funding and programming goals.

Mr. Barry Lester is Southern Division's point of contact for this effort and may be reached at (803) 743-0573. He will contact your office in the near future to finalize plans for the Mayport meeting. Should a representative

5090

from your office not be available to attend the March 19 meeting, please contact Mr. Lester as soon as possible. We want to have all interested parties attend if possible.

Sincerely,

D. R. SPELL, P. E.
Head, Environmental Branch
