Atlanta, GA 30365

Subj: DRAFT FINAL WORK PLAN FOR RCRA FACILITY INVESTIGATION (RI)  
NAVAL STATION MAYPORT, FL - PERMIT #FL 9170-024-260

Dear Mr. Holloway:

This letter is to confirm your conversation with our Mr. Moser on 4 December 1987. EPA Region IV sent the subject work plan for review on 11 August 1987 and no comments have been compiled to date. Also, the EPA will not be in a position to provide comments until an operators Part B permit is issued by the State of Florida.

We appreciate EPA's position, however, we would like to be able to begin the RCRA Facility Field Investigation as soon as possible. Currently, we are finishing up the verification field work under the Navy's Installation Restoration (IR) Program and would like to continue without delaying or duplicating field work efforts. We request your cooperation and assistance in providing your comments as quickly as possible on subject work plan.

If you have any questions or need additional information, please contact Mr. Robert Moser at (803) 743-0570.

Sincerely,  
J. B. MALONE,  
ACTING HEAD, ENVIRONMENTAL BRANCH
