Atlanta, GA 30365

Subj: REQUEST FOR EXTENSION OF RESPONSE TIME FOR RFI WORK PLAN COMMENTS FOR
NAVSTA Mayport, Fl.

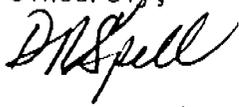

Dear Mr. Antley:

We are in receipt of your letter dated March 10, 1989, which provides review comments for the RCRA Facility Investigation (RFI) Work Plan dated July, 1987 submitted to your office for Naval Station, Mayport, FL (I.D.# FL8-170-023-792). This work plan was submitted as required by Condition II.C.1 of the HSWA Permit for the Facility.

Due to the delay in receiving these review comments the contract for finalizing the RFI Work Plan is no longer available. Present funding will allow us to address the RFI Work Plan comments utilizing a contract currently under negotiation. This contract allows for the development of CERCLA corrective action documents utilizing RCRA requirements as an ARAR. The result will be a combined RFI-RI/FS Work Plan and supporting plans which will address both CERCLA and RCRA requirements in a single document, as outlined in a meeting with Arthur Linton, Mickey Hartnett and Beverly Spagg of EPA Region IV on March 23, 1989 at Southern Division, Charleston, SC.

Utilizing the contract described above, the anticipated submittal date for the combined work plan is March 1, 1990. Accordingly, we request that the time period for response to the RFI Work Plan comments be extended 320 days to allow for the development of the above referenced documents.

If you have any questions, please contact Mr. James Reed, Code 11434 at (803) 743-0572.

Sincerely,

D. R. SPELL, P. E.
Director, Utilities Division
