Re: RFA Confirmatory Sampling Report for Phase 1 Group 1
SWMUs at Naval Station Mayport, Florida FL9 170 024 260

Dear Captain Ziemer:

The United States Environmental Protection Agency (EPA) has reviewed the November 23, 1992, RCRA Facility Assessment (RFA) Report for Confirmatory Sampling for Phase I for Group 1 SWMUs at Naval Station Mayport. As a result of a June 29 through July 2, 1993 meeting between the Navy, Florida Department of Environmental Regulation (FDER), and EPA, it was determined that the subject report complies with the RFA Work Plan approved by EPA on March 27, 1992. Therefore, EPA's May 13, 1993 comments on the subject report need not be addressed by the Navy. Please finalize the subject report and submit three copies to EPA.

As a result of programmatic, budgetary, and technical issues which have surfaced recently, we request that you revise the Corrective Action Management Plan (CAMP) accordingly. The Camp should be challenging and attainable but realistic. Please submit three copies of the draft revised CAMP to EPA.

Thank you for your cooperation. If you have any questions, please contact Doyle T. Brittain of the Federal Facilities Branch, Department of Defense Remedial Section, at (404) 347-3016.

Sincerely,

Joseph R. Franzmathes
Director
Waste Management Division
