SUBJ: Solid Waste Management Unit (SWMU) 29 -- Pipeline Break,
and SWMU 46 -- SIMA Engine Drain Sump
Naval Station Mayport, Jacksonville, Florida
EPA I.D. No. FL9 170 024 260

Dear Captain Cantfill:

The U.S. Environmental Protection Agency (EPA) has reviewed your November 29, 1994, request to transfer SWMUs 29 and 46 to Florida's petroleum contamination site cleanup program (FAC 62-770). Since all analytical results indicate only petroleum contaminants are present and the Florida Department of Environmental Protection has agreed to assume the management of these SWMUs under FAC 62-770, EPA has determined the Confirmatory Sampling requirements under permit condition II.D.5. has been met and your request for no further investigation is approved.

Should you have any questions or comments, please contact Mr. Jay V. Bassett of the Federal Facilities Branch at the above address or call at (404) 347-3555, extension 6462.

Sincerely,

James S. Rutzman for

Joseph R. Franzmathes
Director
Waste Management Division
