Mayport, Florida 32228

SUBJ: Solid Waste Management Unit (SWMU) 54 – Oil Water Separators, Area of Concern (AOC) A – Fuel Distribution System, and AOC B – Bldg 25 & 263 Underground Storage tanks for Naval Station Mayport, Jacksonville, Florida
EPA I.D. No. FL9 170 024 260

Dear Captain Cantfill:

The U.S. Environmental Protection Agency (EPA) has reviewed your request to transfer SWMUs 29 and 46 to Florida's petroleum contamination site cleanup program (FAR 62-770). Since all analytical results indicate only petroleum contaminants are present and the Florida Department of Environmental Protection has agreed to assume the management of these SWMUs under FAR 62-770, EPA has determined the Confirmatory Sampling requirements under permit condition II.D.5. has been met and your request for no further investigation is approved.

EPA's concurrence is predicated on the information provided; therefore, any new information contradicting the basis for this concurrence may require further investigation or corrective actions.

Should you have any questions or comments, please contact Mr. Jay V. Bassett of the Federal Facilities Branch at the above address or call at (404) 347-3555, extension 6462.

Sincerely,

James S. Rutzman for
Joseph R. Franzmathes
Director,

Waste Management Division
