Mr. Joseph R. Franzmathes
Region IV (WMD-FFB)
U.S. Environmental Protection Agency
345 Courtland Street, N.E.
Atlanta, GA 30365

Subj: SEVEN AREAS OF CONCERN AT
NAVAL STATION MAYPORT
HSWA PERMIT FL9 170 024 260

Dear Mr. Franzmathes:

This is to inform you of seven Areas of Concern located at Naval Station Mayport (NAVSTA). All of these sites, listed below, were identified as a result of NAVSTA's IR Partnering Team efforts.

The sites are: 1 - TCE spill at Building 191, 2 - Aboveground Storage Tank at Building 1380, 3 - Old Pesticide Area at Bravo Pier, 4 - Lake Wonderwood Area, 5 - Old Small Arms Range, 6 - NaOH Spill at Building 1241, and 7 - Aircraft Display Area.

A SWMU assessment report has been submitted to your office for sites 3, 4 and 7; it recommends no further action at this time. For site 2, NAVSTA letter 5090.12/.15/.16 Ser N4E/1530 of August 9, 1995, and FDEP Northeast District letter of August 22, 1995, are enclosed. FDEP's letter and the enclosed Southeastern Environmental Laboratories analysis of June 16, 1995, of the secondary containment berm sediments, confirm that there are no contaminants related to this site which was used as storage for non-hazardous mineral oil. Therefore, we recommend no further action at this time under our HSWA permit at site 2. SWMU assessment reports will be submitted to your office and FDEP Tallahassee for sites 1 and 6. The site 5 investigation is being performed in conjunction with the Group III RFI and a separate report will not be submitted for this area.

If you have any further questions regarding this subject, NAVSTA's point of contact is Cheryl Mitchell, N4E4, at 904-270-6730 x31.

Sincerely,

M. J. MCVANN
Acting Staff Civil Engineer
By direction of
the Commanding Officer
