RE: Annual Monitoring of Small Arms Range

Dear Randy:

This is to acknowledge receipt of the above document dated January 12, 1999 (received January 15, 1999). I note the absence of contamination in the sediment and ground water. If the samples next year are also clean, I suggest that we meet with Mr. Ashwin Patel at the FDEP Northeast District and consider the sampling program with the thought in mind of taking samples every other year.

I look forward to seeing you at the April Partnering meeting. If you have any questions, please give me a call.

Sincerely,

James H. Cason, P.G.
Remedial Project Manager
