RE: Monitoring Report for ECHO Pier, Naval Station Mayport, Mayport, FL

Dear Ms. Washington:

I have reviewed the above document dated October 2000 (received December 14, 2000). The document notes that benzene is still a contaminant at the site and that some free product is being encountered intermittently in MW-02. The report is acceptable for its intent. Please continue the monitoring on a quarterly basis but we should consider beginning semiannual monitoring when the Annual Report is submitted.

If you need further clarification if you have any questions, please contact me at 850-921-4230.

Sincerely,

James H. Cason, P.G.
Remedial Project Manager

CC: Jan Bouvier, NAVSTA Mayport
