RE: Draft RCRA Facility Investigation for Area of Concern C, Naval Station Mayport, Mayport, Florida

Dear Ms. Wilson:

I have reviewed the above document dated September 2001 (received September 7, 2001) via teleconference at the Tetra Tech office today. We discussed various aspects of the document including data presentation, possible additional soil contamination delineation and aspects of the ecological risk evaluation. It is my understanding that a revised draft of the document will be distributed in the near future. I appreciate that we are able to meet in this manner in order that we can increase the efficiency of our review and response time and I look forward to the revised document.

Please reply to this message, acknowledging receipt. If you need further clarification or any additional information, please feel free to contact me at 850-921-4230.
