RE: Pilot Study Sampling and Analysis Plan: EcoBlocks Pilot Study; Naval Station Mayport,
Mayport, FL

Dear Ms. Mitchell:

I have reviewed the above document dated November 27, 2001 (received December 6, 2001). The document describes the sampling regime of the raw material used in a pilot study for the construction of EcoBlocks and for sampling the finished EcoBlocks after construction. The document is in accord with our previous discussions and is approved.

I appreciate your close cooperation in this project and to the continuing efforts of the Mayport Partnering Team in helping design the project. If you need any other assistance, please contact me at 850-921-4230.

Sincerely,

James H. Cason, P.G.
Remedial Project Manager
